Training and Support

Support Services

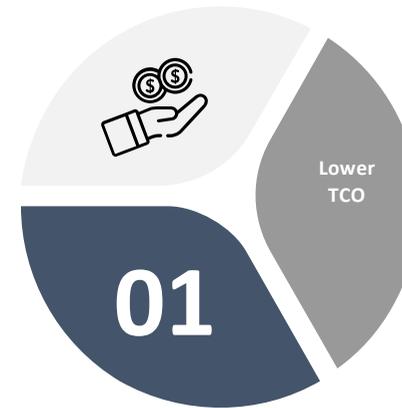

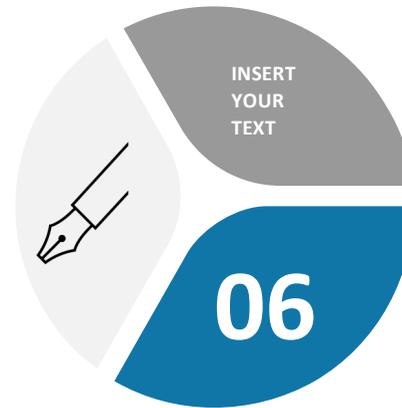

Database Administration

EBTECH have in place a veteran team of Oracle Database experts having extensive experience in Oracle Database installations, advanced configurations like RAC and DR, platform migrations, upgrade and performance tuning etc.

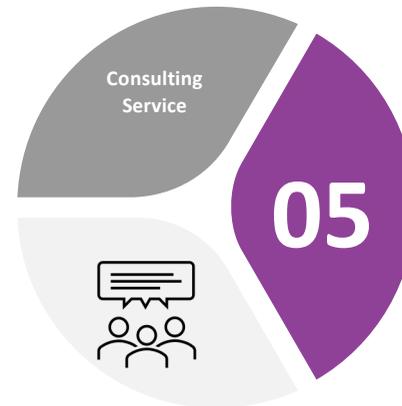

Evaluate Situation: review internal activities and provide management with audit report about the actual situation of the services.

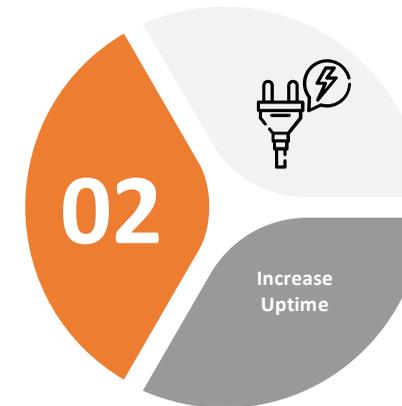

Lower Total Cost of Ownership: save enterprises time and money by reducing staffing, training, maintenance, and upfront capital expenditures associated with support and help desk calls.

Consulting Service: Give the advice and the best solution guidelines so no more wasting time in try and error.

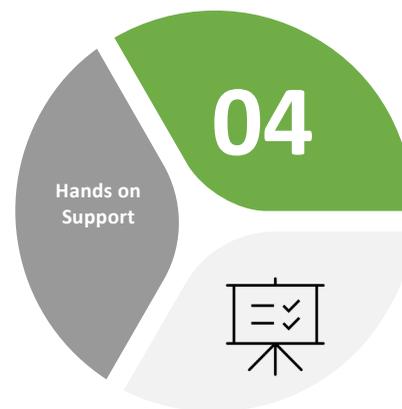

Key Benefits of Support

Increase Uptime: we leverage our extensive experience to rapidly troubleshoot and resolve functional & technical issues for solutions in a timely manner, hence accelerating your IT efficiency for higher system uptime & availability.

Hands on Support: Provide full support of your internal IT teams and build well educated internal first level support team.

Reduce Risks: we provide you with a secure channel to reduce the Risk of service discontinuity, through the direct communication with our highly skilled IT professionals.
